DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(f) he did not himself invent the subject matter sought to be patented.

2. Claims 1-18 and 45-68 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. The following published reports or documents provide evidence that indicate applicant Iwasaki may not be the sole inventor. Specifically several reports are coauthored by the applicant and one of either Salih Ersayin or Chuying Wu. The report "Magnetic Field Application in Hydroseparators and Flotation Cells" 10 August 2001(progress report No. 1)-[released to public 27 February 2002], or "Effect of Magnetizing/demagnetizing on Cationic ...Field" 17 Oct 2001 (Final Report)- [released to public 27 February 2002], or "Magnetic field application ... Concentrates" August 2002 or "Magnetic Field ... Flotation" 04 May 2001 [released to public 27 February 2002], or "Magnetic Field Application In Hydroseparators" 25 April 2001 [released to public 27 Feb. 2002] all disclosure the claimed invention. If applicant is the

sole inventor, applicant may want to consider filing a declaration or affidavit under 35 CFR 1.132 indicating that the inventorship is correct in that the claimed subject matter is invented by the applicant and not derived from another.
